

**SPECIFICATION AMENDMENTS**

On page 10, after paragraph [0035], please insert new paragraph [0036] as follows:

[0036] It should be apparent from the foregoing description that various exemplary embodiments of the invention may be implemented in hardware and/or firmware. Furthermore, various exemplary embodiments may be implemented as instructions stored on a computer-readable storage medium, which may be read and executed by at least one processor to perform the operations described in detail herein. A computer-readable storage medium may include any mechanism for storing information in a form readable by a machine, such as a personal or laptop computer, a server, or other computing device. Thus, a computer-readable storage medium may include read-only memory (ROM), random-access memory (RAM), magnetic disk storage media, optical storage media, flash-memory devices, and similar storage media.
